recognized that there is an urgent need for ensuring recovery of cost of service from consumers to make the power sector sustainable.

The Policy provides that a minimum level of support may be required to make the electricity affordable for consumers of very poor category. Consumers below poverty line who consume below a specified level, say 30 units per month, may receive special support in terms of tariff which are cross-subsidized. Tariffs for such designated group of consumers will be at least 50% of the average (overall) cost of supply.

Furthermore, Section 65 of the Electricity Act provides that if the State Government requires the grant of any subsidy to any consumer or class of consumers in the tariff determined by the State Commissions, the State Government shall pay to the concerned utility/licensee the amount required to compensate the grant of subsidy.

Hydro Electricity Generation Targets in Uttarakhand

†692. SHRI HARISH RAWAT: Will the Minister of POWER be pleased to state:

(a) the hydro electricity generation target fixed for Uttarakhand under the current Five Year Plan;

(b) the details of power projects to be completed in the State under the present plan; and

(c) the details of power projects to be completed within the Eleventh Five Year Plan and the target fixed there-under?

THE MINISTER OF POWER (SHRI SUSHILKUMAR SHINDE): (a) A hydro power capacity addition of 3154 MW has been envisaged for Uttarakhand in the current Five Year Plan.

(b) The details of the power projects expected to be completed in the State during the Eleventh Five Year Plan are as under:

Hydro Projects in Uttarakhand likely to give benefit in 11th Plan (2007-12)

Sl. No.	Name of Projects, Executing Agency, State	Installed Capacity (MW)	Likely year of commissioning
1	2	3	4
Central Sector			
1.	Koteshwar THDC, Uttarakhand	400	2010-11
2.	Loharinagpala NTPC, Uttarakhand	600	2011-12
3.	Tapovan Vishnugad NTPC, Uttarakhand	520	2011-12
4.	Tehri St-II PSS THDC, Uttarakhand	1000	2011-12
	Sub-Total	2520	

†Original notice of the question was received in Hindi.

Generation of Thermal Power

†693. SHRI JAI PRAKASH AGGARWAL: Will the Minister of POWER be pleased to state:

(a) whether target fixed for thermal power generation has been achieved in accordance with installed capacity of thermal power projects, during the last five years, till date;

(b) the details of those thermal power projects which have achieved the fixed target; and

(c) the details of those projects which are generating lesser electricity than their installed capacity and the reasons therefor?

THE MINISTER OF POWER (SHRI SUSHIL KUMAR SHINDE): (a) Generation targets are fixed for various thermal power stations on annual basis keeping in view their installed capacity, age of units, past performance, planned outages, availability of fuel and its quality, etc. The overall achievement in thermal generation in 10th Plan has been about 99% of the generation taget. Year-wise details of achievement of generation target of thermal power generation during the 10th Plan are given below:—

Year	Thermal Generation (% of Target)	Growth rate of total Generation (%)
2002-03	100.67	3.1
2003-04	98.77	5.0
2004-05	99.94	5.2
2005-06	97.18	5.1
2006-07	97.8	6.1
